

September 18, 2009

Dear Parent/Guardian,

You requested to be informed of pesticide applications.

The first Tuesday of each month the exterminator will inspect the elementary building and the fourth Tuesday of each month the middle school site will be inspected. In the seldom event an application is done, it is applied after school hours. Rodent traps are used in certain areas of the building and per government mandate; spray pesticides can no longer be used.

If you have further questions or concerns, please leave your name and number with the office and I will return your call.

Sincerely,

Angela Johnston
Principal
